Description of project, including changes from a previously approved project and/or time frame:

I'm asking the Board of TLV for removal of two dangerous hemlock trees growing out of a deceased tree stump on the East side (edge of common area) between Outlook Ln and Clear View Pl. Since the trees are located approx. 35 feet from my house, I'm very concerned about the possibility that during heavy winds the trees could fall right on top of my house and cause serious damage.
